

Hand-skin-friendly environmental disinfectant Weakly hypochlorous acid water disinfectant powder

Certified as the world's first*¹ halal product
as a powder-type hypochlorous acid water generator.

We have passed the strict halal examination of
the religious corporation Islamic Center Japan.

J-BOY 除菌パウダー

1 packet
5g

When producing
weakly acidic hypochlorous
acid water of about 50 ppm

Easy and simply!
Just use it when you want to need !!

Medical and long-term care sites

J-BOY disinfectant powder has been
widely used in medical and long-term care
fields since its release.
It is used as a disinfectant and deodorant
measure in various environments. *²

Speed deodorization

Powerfully speedily deodorizes
unpleasant odors such as cigarette
and pet odors, filth, and swill.

A wind for Halal

By introducing disinfectant powder into
the "dedicated space cleaning system
J-BOY" and the air purifier "Viruswasher
PRO", you can create a clean space that
considers Muslims.

Hand-skin-friendly weakly acidic

It is a Hand-skin-friendly disinfectant
because it is weakly acidic with a pH
value of 6 to 6.5. *³

Light and compact

1.0g / packet (J-BOY disinfectant powder)
and 0.5g / packet (sterilized water source)
make it easy to carry without taking up
space. Logistics costs can be reduced and
it is reasonable.

Can be stored for a long time

Unlike liquid type weakly acidic
hypochlorous acid water, J-BOY
disinfectant powder is not easily affected
by ultraviolet rays and temperature rise, so
if it is unopened, it can be stored for a long
time. *⁴

*1:As of April 1, 2022, in-house research *2:Released in 2015 *3:Varies depending on the pH value of tap water to be diluted.

* 4: After generation, avoid ultraviolet rays and use as soon as possible.

Weakly acidic hypochlorous acid water makes it safe, secure, and powerful disinfectant.

Powerful disinfection

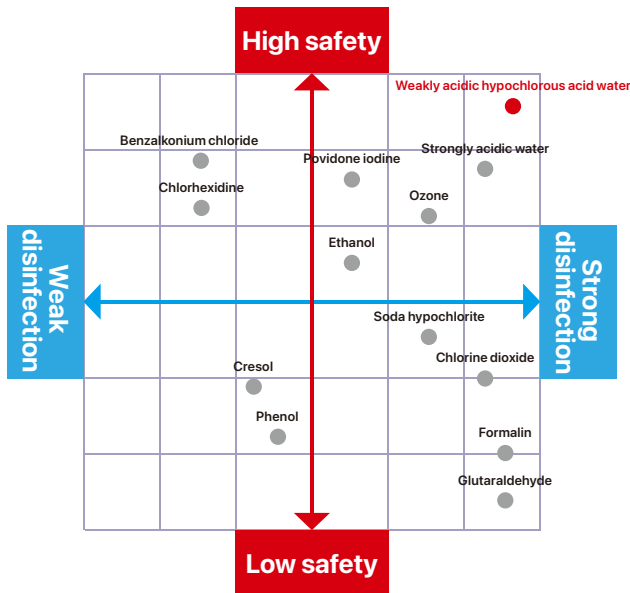

Hypochlorous acid water is effective against a wide range of bacteria and viruses that cannot be removed by alcohol.

Instant deodorization

Deodorizes instantly by decomposing the cause of odor such as ammonia from the beginning.

High safety

Hand-skin-friendly weakly acidic so it is safe for daily use.

Verification organization : Chiba Prefectural Pharmacy Association Inspection Center

Test bacteria : Escherichia coli, Bacillus cereus, Salmonella, Staphylococcus aureus, Pseudomonas aeruginosa

Comparison with alcohol

	Weakly acidic hypochlorous acid water	Alcohol disinfectant
Disinfectant power	Bacteria / Viruses	Norovirus cannot be disinfected
Preservation / storage	Not flammable	Flammable
Can be used on	Anywhere	Wet areas cannot be disinfected
Convenience	No quick dry	Quick dry
Safety / environment	Minimal damage	Cause of rough hands
Cost	low	high
